RECOMMENDED ARCHITECTURAL STYLES

Qatari Vernacular*

Early Modern (Doha - Art Deco)*

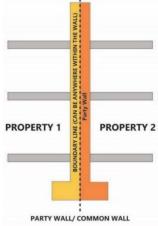

STANDARDS

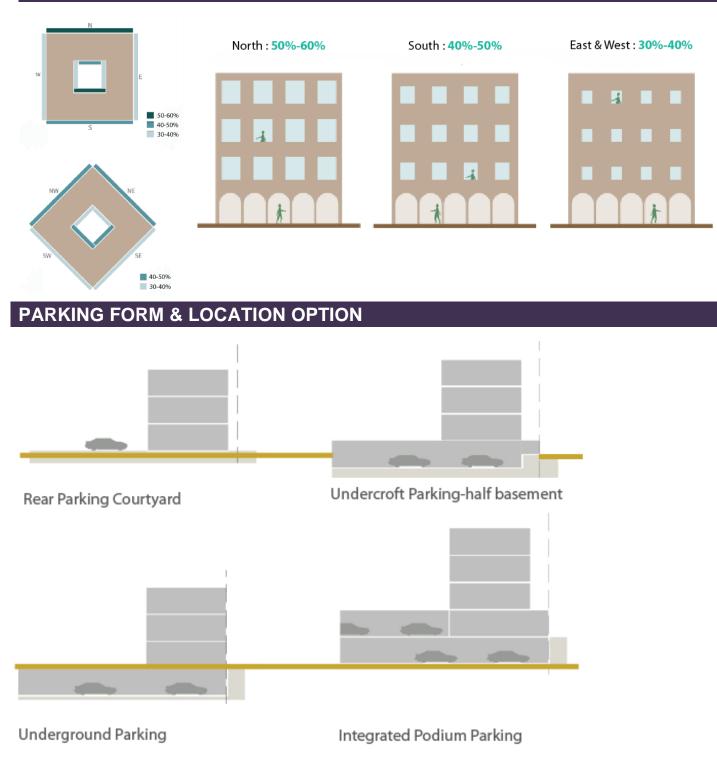

Architectural Theme/ Style	 General: Qatari Vernacular Recommended Early Modern (Doha Art Deco) Style for buildings along Al Fadeela-Al Asmakh & Ahmed Bin Mohammed Bin Thani Street (A Ring Road), as most of the existing buildings have adopted this style 		
	(* Refer the details to the <u>Townscape &</u> <u>Architectural Guidelines for Main Streets</u> in Qatar)		
Exterior expression	• Clear building expression of a base, a middle and a top		
	• The Base Part (Ground Floor): should clearly be expressed (eg. with architrave or corniche ornament)		
	 The Middle Part: Should adopt local rooted architectural language for its elements such as openings, shutters, balconies, bays etc. Should reveal the external expression of each storey 		
	• The Top Part should be marked by parapet or entablature		
Minimum Building separation	 6 m between two buildings with facing non-habitable rooms 8 m between two buildings with a facing non-habitable room and a facing habitable room 12 m between two buildings with facing habitable rooms 		
Party-Wall / Common Wall	The attached building's parts should have its own wall and foundation and comply to the standard of construction and fire-safety		
Floor height (maximum)	 Slab to slab height (mid-point): Ground floor: 5 m Ground floor with mezzanine: 6.5 m Typical floors (residential and other): 3.50 m Ground floor ancillary building: 3.50m 		
Building Orientation	 All the fasade's elements (windows, doors, balcony, bay window, etc) should respect the streets based on their hierarchy. Primary fasade should orientate to the highway /expressway/ collector/arterial streets. 		
Active frontage features	Entrances, <i>madkhal</i> , lobbies, window openings, arcades, porches etc		
Active chamfer at the intersection	The chamfer side should be activated by providing main access for people		

QATAR NATIONAL MASTER PLAN

	and designing active frontage/fasade or small landscaped area with public facilities such as benches, public art, small lawn area, etc
Building Material	 Avoid excessive use of glass-wall Use the low environmental impact materials, that conform to ISO 14025, 14040, 14044, and EN 15804 or ISO 21930
Window-to-Wall Ratios	Refer to the diagrams
LANDSCAPE STANDARD	
Forecourt	For buildings along the secondary streets, the forecourts should have small green space for landscape
Barrier/fences	Street side: not allowed Sides and rear: transparent where possible; maximum height 2.5 m
Green Roof	50% area of the podium and the roof- top should be landscaped with dominant soft-scape (trees, plants, urban farming etc)
ACCESSIBILITY STANDAR	RD
Pedestrian access	 Main building entrances should be oriented to the side indicated on the plan. Pedestrian Access on the plan indicates the side for main pedestrian access, not the approximate location
Vehicle egress and in- gress	 Main Vehicular Access on the plan indicates the side and approximate location of the access, subject to site planning and transportation constraints.
SIGNAGE	
Style	Signage should be an integral part of the building fasade without background.
